

## “Altair's Company Vision”

*Altair Engineering Inc.*  
1820 E. Big Beaver Rd.,  
Troy, MI 48083-2031, USA

**James R. Scapa**  
*President/CEO*

### **Biography**

#### **Education:**

Scapa holds a bachelor's degree in mechanical engineering from Columbia University and a Master of Business Administration from the University of Michigan.

#### **Previous Work History:**

James R. Scapa brings more than 20 years of engineering experience to his dual role of President and CEO of Altair Engineering, Inc., a title he has held since the company's inception.

In 1985, Mr. Scapa and two partners founded a small consulting activity in the new field of computer-aided-engineering. Today, the company employs over 1,200 employees with offices throughout 13 countries.

Through Mr. Scapa's leadership, the company is now a leading provider of innovative product design services, advanced engineering software and grid computing technology. With over 3,000 clients, Altair serves the automotive, aerospace and government industry sectors as well as the financial services, oil and gas, life sciences and consumer product markets.

Based at the firm's global corporate headquarters in Troy, Mich., Scapa is responsible for leading one of the world's premier developers of product engineering software for modeling, visualization, optimization, data management and process automation.

Prior to establishing Altair, Scapa served as an engineering consultant to the automotive industry, beginning his career with Ford Motor Company in 1978.
